

**IN THE DRAWINGS:**

Applicants have amended the sole figure to include the deficiencies noted by the examiner. Applicant does not state that when a single drawing is submitted, the drawing does not require a number. However, we included same. The plug ins are not part of the component framework, as the framework provides a base by which the plug in communicates with the framework. The SCF then provides select combinations of plug-ins to a client that is accessed over a telecommunications network in this illustration.
